

BIOGRAPHIES OF THE SPEAKERS

2nd Seminar

27-29/11/2007 - Royal Salt Works of Arc & Senans (FR)

*“Changing our mindsets:
Inspiration from sustainable districts”*

With the support of:

Ada ÁMON

Director of the Energy Club

(an independent, non-governmental, not-for-profit group working for sustainable energy policy)

Born in 1969, lives in Hungary and speaks Hungarian and English

Areas of interest and expertise: Graduated at the Budapest University of Economic Sciences in 1993, Ada Ámon started as a consultant on energy policy for

the International Institute for Energy Conservation, London. In 1996 she joined the CEE Bankwatch Network as the Hungarian Energy Coordinator. Since 1998 she has been the director of the Energy Club, which is a leading NGO and think tank group in CEE on energy policy issues. Since April 2004 she is a member of the National Environmental Council, a body which is the official advisory group of the Hungarian Government. She has been working together with groups like Greenpeace, Friends of the Earth, Climate Action Network, WWF, Okolnstitute and many more. www.energiaklub.hu

Antoinette GILLET

Présidente de l'association nationale « Collectif Effinergie »

Née en 1941, vit en France et parle le français.

Domaine d'expertise, centres d'intérêts : Politique au service du Développement durable.

Antoinette Gillet, bibliothécaire en retraite, est conseillère régionale verte de Franche-Comté depuis 1994. Elle a été conseillère municipale de Saligney (petite commune forestière du Jura) de 1983 à 2001, et adjointe au maire de 1995 à 2001. Elle

est aujourd'hui Vice-Présidente du Conseil Régional de Franche-Comté depuis 2004, en charge de la recherche, l'innovation, l'université et l'énergie, et présidente de l'association nationale « Collectif Effinergie » www.effinergie.org

Blandine PIDOUX

Information manager

Born in 1965. Lives in France and speaks French and English.

Areas of interest and expertise: Networking and communication, information management and knowledge sharing, sustainable development and living.

Graduated in Philosophy (1985) and in Information Sciences (2001), she has joined Energie-Cités' team for 5 years. She works mainly on the IMAGINE initiative, and information management (researches, valorisation and dissemination) for Energie-Cités' activities and projects. She is also responsible of the promotion and organization of the Energie-Cités' study tours between member cities.

As a voluntary worker, she has been the Franche-Comté regional delegate for the ADBS (French national association of documentalists and information workers) from 2002 to 2006.

www.energie-cites.eu, www.adbs.fr

Camille BIERENS DE HAAN

Présidente de l'association EcoAttitude, ONG suisse qui travaille à l'éducation au développement durable par des moyens non-académiques ainsi qu'à la création de lieux où il se met en pratique.

Née en 1946, vit à Genève. Francophone polyglotte (anglais, néerlandais, italien, espagnol et allemand)

Domaine d'expertise, centres d'intérêts : communication écrite et orale, écoquartiers, processus participatifs, écoute, improvisation

Artiste de la scène, de la tradition orale et de la voix, puis universitaire formée à la pédagogie des adultes (DEA) et aux technologies de l'enseignement (DESS), éveillée par une période de chômage aux questions de l'exclusion et à la vie des quartiers. S'est formée au développement durable dans les écovillages (Flindhorn/Ecosse,

CrystalWaters/Australie, Schumacher College/UK). A créé en 2004 et depuis anime l'association citoyenne EcoAttitude à Genève. www.ecoattitude.org

Carl-Olof BENGTTSSON

Former Mayor of Växjö (SE)

Born in 1947, lives in Växjö and speak Swedish and English

Areas of interest and expertise: I have degree in political science and history.

My interest is in environmental matters, economy and also sports.

www.vaxjo.se

Carlos SOUSA

Director of AGENEAL, Local Energy Management Agency of Almada

Born in 1971, lives in Portugal and speaks Portuguese, English, Spanish and French.

Areas of interest or expertise: Energy efficiency in transports and buildings.

Background: Degree in Mechanical Engineering, with a Master in Applied Thermodynamics

www.ageneal.pt

Caroline GERVAIS

Executive Director for The Natural Step France / Sustainability Advisor

Born in 1972, lives in France and speaks French and English

Areas of interest: Strategic sustainable development, innovation, organizational learning,

After a PhD in waste Management and a few years researching the subject in the UK, the question "why do we have waste?" became obvious. I joined Forum for the Future to work on the Mass Balance UK project and did some research on sustainable resource use with The Natural Step UK. The next "natural step" has been to set up the French branch ! www.tns-france.org

Christian Maurice VASSIE

City of York councilor, composer, author

Born in 1958, lives in the United Kingdom and speaks French and English

Areas of interest and expertise: Energy Use, transforming local authority response to Climate Change, creativity, communication, media, film making, intellectual property rights

Degree in African Languages and ethnomusicology, Produced music for over 70 television and film productions; author and blogger;; Energy Champion and Chair of City Strategy, City of York Council. I am instrumental in bringing City of York council its first sustainable building – the ecoDepot – the largest timber framed straw clad building in Europe.
www.york.gov.uk

Fabrice DECELLAS

Ingénieur de recherche

Né en 1968, vit en France et parle le français et l'anglais

Domaine d'expertise, centres d'intérêts : Prospective territoriale, énergétique sectorielle

Ingénieur de formation et après quelques années d'exercice de la profession de consultant en organisation et systèmes d'information dans le secteur de l'assurance, j'ai rejoint EDF en 1996 en tant que chef de projet systèmes d'information.

J'intègre en 2000 l'équipe R&D en charge des partenariats et de la propriété intellectuelle et travaille depuis 2003 au renforcement d'une vision territoriale des enjeux énergétiques. www.edf.fr

Frans van der WERF

Architecte et Urbaniste à Zandvoort,
Frans Zwaanstraat 2, 2042 CC Pays-Bas.

Né en 1937, parle français, anglais, allemand et néerlandais

Etude à l'université de Delft, Hollande, Etude de la Ville Nouvelle d'Evry à Paris, Recherche sur des tissus urbains et les règlements de l'urbanisme

Spécialités des projets réalisés :

- Habitat évolutif avec participation des futur habitants
- Architecture bio-écologique, durable etc.
- Centres commerciales
- Habitat pour des personnes âgées, psycho-gériatrique.

Présentations à Paris, HongKong, U.S.A., China, Indonésie, Japon, Maastricht (Cradle to Cradle). www.vdwerf.nl

Georg von NESSLER

Dipl. Kfm. / Director IP-Building

Born in 1951, lives in Germany and speaks German and English

Studied Economics ; Economic– and Art History in Frankfurt Germany and London England. Graduated in Economics. Postgraduate Education in R + D – Information and Documentation, Market Intelligence.

Is consulting market leaders and Institutions on energy and sustainability, integrated planning and building of infrastructure projects.

Has working experience in the following countries: China, Eastern European Countries , India, Russia, Western European Countries

Is invited to present his tools, methods and instruments on many international meetings and events, as UNESCO CUBES . www.ip-building.de

Georges OHANA

Délégué à l'énergie de la ville de Lausanne

Né en 1958, vit en Suisse et parle français et anglais

Domaine d'expertise, centres d'intérêts : efficacité énergétique, énergies renouvelables, communication

Etudes de physique à l'Ecole Polytechnique Fédérale de Lausanne (EPFL). Comme responsable R&D, mis en place de nouvelles procédures et technologies, dans le domaine des diagnostics énergétiques liés aux bâtiments et de l'énergie solaire. A mené la démarche ayant permis à Lausanne de recevoir en 2004 l'European Energy Award Gold pour sa politique énergétique exemplaire.

www.lausanne.ch, www.lausanne.ch/metamorphose

G rard MAGNIN

Executive Director of Energie-Cit s

Born in 1951, lives in France and speaks English and French.

Areas of interest and expertise: Educated in both energy and economics & social sciences, G rard Magnin is a specialist in local energy management.

He is the Executive Director of Energie-Cit s, since 1994, after having been at the origin of this European Network in 1990. Beforehand, he was a teacher in economics and social sciences from 1977 to 1984 and Regional Manager of ADEME (French Agency for the Environment and Energy Management) from 1985 to 1995 in Franche-Comt . www.energie-cites.eu

Giovanni Franco ORLANDO

Town Councillor for the Environment and Civil protection – City of Modena

Born in 1963, lives in Italy and speaks Italian and French

Areas of interest or expertise: Environment

1987-1989: he worked as parliamentary assistant at Italian Parliament, in particular for the Committees for Agriculture and External affairs;

1992-1994: he was Head of Cabinet of the Secretary of Department for Training, Work and University of Emilia-Romagna Region;

as City officer, he has worked in the Department for European affairs and international relations. Since 2004 he is Town Councillor for the Environment and Civil protection of the City of Modena.

He is also president of the local Agency for Energy and Sustainable development of Modena and president of the Consortium of the River Secchia Park. www.comune.modena.it

Guillaume SERRE

Responsible for Environmental Projects in Dexia

Born in 1983, lives in France and speaks French and English

Areas of interest or expertise: Renewable energy, building energy efficiency, Transport, Local policies for sustainable development, CO2 market

Engineer Ecole Centrale Lyon 2006; Exchange studies at KTH, Sweden (Renewable energy technology, Water and waste handling...); Master "Sustainable Development Management" at HEC Paris 2007.

www.dexia.com

Heikki RINNE

Project Manager

Born in 1947, lives in Helsinki, Finland and speaks Finnish, English, some Swedish and German

Areas of interest: Town planning and building, infrastructure, ecological and environmental issues in housing production.

Master of Science in Civil Engineering. Worked some years in city planning department of Helsinki, concentrating in infrastructure and urban planning economics. Since 1991 in Economic and Planning Centre at Town Hall, responsible for project management of Viikki and some neighboring new housing and workplace areas.

<http://www.helsinki.fi/en/>

Hervé MAILLOT

Consultant engineer and scientist (mathematics).

Born in 1968, lives in France and speaks (by decreasing order of ease...) French, Spanish and English.

Areas of interest:

- Sustainable societies with focus on economics and territorial metabolism.
 - Tools and methods designed for people working on collaborative projects.
 - Citizen networking, bottom up process.
- PhD in Mathematics (1998, University of Franche-Comté, Besançon).
 - Teacher and researcher in mathematics from 1998 to 2007. Positions : Universidad Complutense (Madrid), University Pierre et Marie Curie (Paris), Ecole Nationale Supérieure des Techniques Avancées (Paris), Ecole Polytechnique (Palaiseau), Université d'Orléans.
 - Collaborations with the The Charles Léopold Mayer Foundation for Human Progress (FPH, www.fph.ch) and several international citizen networks since 2005.
 - Member of the Awele Project www.awele.net

Ian TURNER

Project manager

Born in 1974, lives in France and speaks French, English and Afrikaans

Areas of interest or expertise: Energy efficiency, public building certification, Integrated Development Planning, public participation

Human Geography and Natural Sciences undergraduate followed by a Masters in Environmental Management. Work experience includes a number of years experience in municipal integrated development planning in South Africa and environmental education in England and South Africa. In South Africa was involved in various projects involving Coastal Zone Management, Community-based Tourism and distance learning. Currently working in France for Energie-Cités focusing on lobbying member states concerning their certification process for public buildings and preparing a European project focusing on pilot local authorities imagining the energy future of their cities. www.display-campaign.org
www.imagineyouenergyfuture.eu, www.energie-cites.eu

Inge van de KLUNDERT

Advisor officer environmental policy in Utrecht (NL)

Born in 1972, lives in The Netherlands and speaks Dutch, English and some German.

Areas of interest or expertise: climate, energy efficiency, policy and governance.

Master of Science in Environmental Biology, University of Utrecht

Master of Business Administration in Environmental Public Management, Technical University of Twente.

www.utrecht.nl

Jacques MIRENOWICZ

Rédacteur en chef de LaRevueDurable, revue de vulgarisation généraliste sur l'écologie tournée vers les solutions d'ordre institutionnel/organisationnel/comportemental.
www.larevedurable.com

Né en 1962, vit en Suisse et parle français et anglais.

Domaine d'expertise, centres d'intérêts : écologie, information, recherche, démocratie et engagement

Français, Jacques termine sa scolarité à Birmingham, au Royaume-Uni, puis accomplit des études de biologie en France, à Rennes puis Paris. Il obtient un doctorat en neurosciences à l'Université de Fribourg, en Suisse, en 1995. L'année suivante, il va au département de psychologie expérimentale de l'Université de Cambridge, au Royaume-Uni, pour travailler sur les théories de l'apprentissage. Son intérêt pour l'orientation et la démocratisation de la recherche l'amène ensuite à travailler trois ans pour la Fondation Charles Leopold Mayer sur ce thème. Il collabore aussi avec les quotidiens Le Courrier et La Liberté sur le thème sciences-société. Fin 1999, il devient rédacteur à Médecine et Hygiène, revue médicale basée à Genève où il reste près de trois ans. Cette expérience lui donne envie de créer LaRevueDurable. Projet qui devient réalité en janvier 2002. Cinq ans plus tard, LaRevueDurable a publié 27 dossiers et compte environ 4100 abonnés.

www.larevedurable.com

Jean-Luc KOLB

Architecte – urbaniste / Adjoint à la direction des travaux de la Ville de Lausanne / chef de projet

Né en 1945, vit en Suisse et parle le français.

Domaine d'expertise, centres d'intérêts :
La ville, l'urbain, la cite. L'aménagement du territoire, l'architecture.

Diplôme d'architecte de l'université de Genève

www.lausanne.ch

Jeremy DRAPER

Energy manager

Born in 1958, lives in the United Kingdom and speaks English (and some understanding of French and German)

Areas of interest or expertise/competence related to your profession:

- Energy monitoring and analysis.
- Energy Data collection and use for energy performance certificates
- Energy purchasing and contract management – dealing with energy supply markets
- Energy surveys/audits
- Developing, funding and implementing energy/carbon management policies
- Building Energy Managements systems and controls
- Liaising with local Energy Agencies

BSc in Environmental Sciences from Warwick University - 1980
Three years working for an Energy Audit company – to 1984
Energy Engineer at London Borough of Croydon 1984-1990
Energy Engineer at Buckinghamshire County Council 1990-1997
Energy Manager at Milton Keynes Council 1997 to date
www.mkweb.co.uk

Julien WOESSNER

Responsable de projets pour la Fondation Charles Léopold Mayer et architecte indépendant

Né en 1971, vit en Suisse, parle français, anglais et allemand

Domaines d'expertise et centres d'intérêts : architecture et urbanisme durables, gouvernance territoriale, construction et animation de réseaux multi acteurs, échanges d'expériences au niveau international.

Architecte de formation, puis master européen en architecture et développement durable, j'ai travaillé 8 ans en agence. Entre 2000 et 2005, suite à un concours gagné pour un bâtiment de l'Etat, exemplaire en matière de développement durable, je coordonne le projet et la réalisation du Centre d'entretien des routes nationales à Bursins, premier bâtiment suisse ayant obtenu le label « ecobau ». Cette réalisation me permet d'expérimenter le chemin à parcourir de l'énoncé des principes du développement durable à leur complexe mise en pratique ! En parallèle de cette activité en agence, j'enseigne ponctuellement, notamment à l'Ecole polytechnique fédérale de Lausanne et participe à diverses associations (Ingénieurs du Monde - EPFL, Attac-Suisse, Architectes Sans Frontière - Suisse). En 2005, je crée ma propre agence d'architecte et en 2006 je suis engagé, à temps partiel, par la Fondation CL Mayer où je suis responsable de projets pour le bureau de Lausanne et co-responsable du pôle « territoire ».
www.fph.ch, www.asf-ch.org

Jun LI

Thésard

Né en 1978, vit en Chine parle le français, l'anglais et le chinois

Domaine d'expertise, centres d'intérêts : Maîtrise de l'énergie ; urbanisme

Avant d'arriver à l'Iddri, Jun Li a obtenu son diplôme DEA Urbanisme à l'Institut Français d'Urbanisme et l' ENPC. Il s'intéresse maintenant à la question de l'efficacité énergétique dans les villes en développement. Il est en train de faire une thèse sur les politiques économiques pour la maîtrise de l'énergie dans l'habitat en Chine, son travail est codirigé par

Michel Colombier (Iddri) et Pierre-Noël Giraud (Mines Paris).

Jun LI is a Ph. D student at the Industrial Economics research centre of the Ecole des Mines de Paris and works together with the Institute for sustainable development and International relations (IDDRI). His thesis deals with the policy instruments for Building energy efficiency in the emerging countries, in particular in the Chinese cities. He joined the Climate& Energy research team of Iddri in January 2006 as a doctoral researcher. His research interests cover climate change, energy efficiency, public policies in buildings sector in China.

Jun LI holds a Ms. Urban planning from the Ecole des Ponts et Chaussées, a Paris based Engineering school. He speaks French and English. www.iddri.org

Kinga KOVACS

Project Manager

Born in 1981, lives in France and speaks Hungarian, Romanian, English, Dutch, French, Italian and Spanish

Areas of interest or expertise: sustainable districts, passive houses, participative methods, citizen involvement

Kinga holds a Masters degree in Urban Environmental Management (Wageningen University and Research Centre, Wageningen, The Netherlands & IHS - Institute for

Housing and Urban Development Studies, Rotterdam, The Netherlands) and a bachelor diploma in Economics (University of Economic Sciences, Timisoara, Romania).

Kinga has previous experience in the field of environmental management systems - ISO 14001 certification of buildings: labelling, performance evaluation, life cycle analysis, communication and auditing (The Netherlands, UK, Czech Republic) and financial consultancy and banking (Romania).

At present, Kinga works as Project Manager for Energie-Cités. She is mainly involved in the preparation of the pilot phase of the European IMAGINE Campaign helping local authorities to imagine and plan their energy future. www.energie-cites.eu, www.imagineyouenergyfuture.eu

Manfred GÖRG

Former Director of "proKlima-Der enercity-Fonds"

Born in 1949, lives in Germany and speaks German, English and French (and understands – más o menos – Spanish and Italian)

Areas of interest and expertise: Elaborating of local energy and climate protection concepts, Coordination of demonstration programmes (Low energy buildings, Energetic modernisation of multi family houses, Cost Efficient Passive Houses as European Standards); climate protection, sustainability and global justice

Dipl.-Ing. of Town and Regional Planning. 1987 until 4/07: Stadtwerke Hannover AG (trademark Enercity®). 1998 until 4/07: Dir. of "proKlima-Der enercity-Fonds" - A climate protection funds in private-public-partnership, financed by Stadtwerke Hannover AG (75 b%), the city of Hanover (20 %) and further cities, with further social partners from the stakeholders. Since 5/2007 in pre-retirement; honararies activities: policy advice in energy efficiency strategies; member of a board of a regional co-operation for renewable energy production; member and co-founder of the NGO "afrisolar" for the development of sustainable solar economies in subsahara africa.

www.hannover.de

Marianne THOMANN

Doctorante

Née en 1982, vit en Suisse et parle Français et Anglais.

Domaine d'expertise, centres d'intérêts : développement durable, aménagement du territoire, urbanisme, politiques publiques.

Licence es Lettres (Géographie, Histoire et Sciences sociales) obtenue en 2005 à l'Université de Lausanne. Thèse en cours sur l'intégration du référentiel du développement durable dans les politiques d'aménagement liées au sous-projet d'agglomération de l'Ouest lausannois (SDOL). L'approche est centrée sur les représentations, valeurs, discours et pratiques des acteurs. La thèse est dirigée par Antonio Da Cunha à

l'Institut de Géographie de l'Université de Lausanne. www.unil.ch

Martin THOMSEN

Environmental engineer

I am 40 yeas old and live in Soender Nearaa, south of Odense in the centre of Denmark. I speak Danish and English and understand some German.

My areas of interest and expertise are energy, energy savings, sustainable planning and renewable energy.

I am educated civil engineer. I have been working as an energy advisor within the industry (electricity, district heating and natural gas savings) for 12 years. For nearly two months I have been employed in Odense Municipality as an environmental engineer. My working field is helping our industry to reduce their environmental impact on the surroundings. www.odense.dk

Matthias SINN

Head of Section "climate protection and health and environmental consulting", City of Munich, Department of Health and Environment

Born in 1961, lives in Germany and speaks German, French and English

Areas of interest or expertise: renewable energies, risk information, best available techniques, air quality control

Background: Chemist

www.muenchen.de

Maximilian VENZKE

Marketing Manager Outdoor Lighting Europe – Philips Lighting

Born in 1978, lives in France and speaks English, German and French

Areas of interest or expertise: Urban lighting

Maximilian Venzke graduated from the Business School of Toulouse and occupied various industrial and marketing positions in France, China and Luxembourg. From 2005 onwards, he is based in Lyon, France where he manages the European Outdoor Lighting Business for Philips.

Co-author of the book *city.people.light – Future urban lighting concepts*, a book that brings together the results of a unique global research into the future of urban lighting, he has extensively worked on ways to enhance the quality of life through light.

www.lighting.philips.com

Michel GIORIA

Chargé de mission prospective et innovation – Direction de la Recherche – ADEME

Né en 1978, vit en France et parle le français et l'anglais

Domaine d'expertise, centres d'intérêts : Economie de l'environnement et du changement climatique, Economie du Développement, Politiques climatiques locales, nationales et internationales, Bilan énergétique et bilan des émissions de gaz à effet de serre aux échelles locales,

Prospective énergétique, technologique et socio-économique, Politique de recherche et développement française et européenne en matière d'énergie non nucléaire, Politique d'innovation en matière d'énergie non nucléaire.

Economiste - économie de l'environnement et du développement - Université de Toulouse 1 et Université de Clermont 1. Depuis janvier 2006 économiste - chargé de mission au sein du service de programmation de la recherche de l'ADEME. De novembre 2002 à décembre 2005 - chargé de mission au sein de l'Agence Poitou-Charentes Energies Déchets, Eau.

www.ademe.fr

Michel LOYAT

Adjoint au Maire de la Ville de Besançon chargé de l'urbanisme

Né en 1954, vit en France et parle le Français.

Professeur de sciences économiques et sociales en Lycée et élu municipal depuis 1995.

Adjoint à l'intercommunalité de 1997 à 2001 et à l'Urbanisme depuis 2001.

Vice Président à la Région de Franche-Comté depuis 2004 en charge des transports. www.besancon.fr

Miriam EISERMANN

Communication Officer

Born in 1982, lives in France and speaks German, Spanish, English and French

Areas of interest or expertise: Creative thinking, interactive communication and sustainable living

Miriam Eisermann works as a Communication Officer at Energie-Cités. Her main activities are centred around the public relations of the association and the question of how to communicate energy issues in an attractive and innovative way.

Miriam holds a Master's degree in Human Ecology (Free University of Brussels, Belgium) and a Bachelor's degree in Media Management (University of Applied Sciences Mittweida, Germany).

During various previous work experiences in Europe (France, Ireland, Belgium and Germany) and abroad (Chile), she was able to apply and deepen her expertise in environmental communications in conventional and unconventional settings.

www.energie-cites.eu, www.imagineyouenergyfuture.eu

Nathalie MOROGE

Assistant & event organiser

Born in 1968, lives in France and speaks French and English

Areas of interest or expertise: Logistics of events (seminars, workshops, visits, board meetings, AGM, trips, etc.)

Preparation of publications and reports

Secretarial work: mail, telephone, mailings etc.

Après des études d'assistante de Direction (BTS), une première expérience professionnelle dans le monde de l'industrie mécanique au sein du groupe Fabricom. Depuis 1995 à Energie-Cités.

www.energie-cites.eu, www.imagineyouenergyfuture.eu

Paul FLEMING

Professor of Energy Management

Born in 1957, lives in the United-Kingdom and speaks English, minimal French and Spanish

Areas of interest and expertise: Local and regional energy management

Paul Fleming is professor of Energy Management and Assistant Director of the Institute of Energy and Sustainable Development at De Montfort University. He has a long history of working with Local Authorities and Regional Bodies in energy efficiency. He has worked for Islington Council and Leicester City Council and been an elected member of the Council of the Borough of Milton Keynes. www.dmu.ac.uk

Paul-Marie GUINCHARD

Délégué régional de l'Agence de la Maîtrise de l'Energie en Franche Comté

Né en 1950, vit et travaille en France et parle français

Domaine d'expertise et centres d'intérêt : Politiques énergétiques, maîtrise de l'énergie, animation de programmes d'actions transversales auprès des collectivités et des groupements professionnels.

Titulaire d'une maîtrise de technologie, il a créé en 1980 un bureau d'études qui s'est rapidement orienté vers les processus industriels de production et vers les problèmes d'efficacité énergétique des dits processus. Il a aussi animé une équipe de consultants chargés de développer des interventions en matière d'environnement dans le domaine des matériaux et des transports.

Il assure depuis 2004 l'animation de l'équipe régionale de l'ADEME en Franche Comté.

www.ademe.fr

Péter NAGY

Head energy manager in Nyiregyhaza (HU)

Born in 1948, lives in Hungary and speaks English.

Areas of interest or expertise: managing of energy efficiency projects at the municipality.

Engineer of automatization for chemical industry, (1970)

Economist, (1991)

Computer engineer. (1994)

<http://www.nyiregyhaza.hu>

Peter SCHILKEN

Chargé de projet

Peter Schilken, 51 ans, possède une expérience de plus de 25 ans dans la connaissance de l'intégration d'énergie renouvelable dans des bâtiments et des énergies renouvelables en général. Pendant ces dernières années il a développé une bonne connaissance des programmes d'énergie de la Commission européenne et entre de près en contact avec les institutions européennes.

Il travaille aussi étroitement avec des agences de locales de maîtrise de l'énergie. Depuis 2003 il gère au sein d'Energie-Cités la Campagne Display® : campagne d'envergure européenne pour l'affichage des performances énergétiques des bâtiments municipaux.
www.energie-cites.eu, www.display-campaign.org

Pierre CALAME

FPH General Director

Born in 1944, lives in France and speaks French and English.

Areas of interest or expertise: Global governance

Chief engineer from Ecole Polytechnique and Ponts et Chaussées (school of civil engineering) - France

Published work :

- *Un territoire pour l'homme*, Edition de L'Aube - 1994
- *Mission Possible*, Edition Desclée de Brouwer – 1995 (French, Spanish, Arabic, Vietnamese)
- *L'Etat au Cœur*, Edition Desclée de Brouwer 1997 (principles for the reform of the State – French, Spanish, Portuguese, Arabic, Chinese)
- *La Démocratie en miettes ; Pour une révolution de la gouvernance* Editions Descartes et Compagnie – 2003 (French, Chinese)
- *Pour une gouvernance mondiale efficace, légitime et démocratique* – ECLM – 2001 (French, English, Spanish, Portuguese, Arabic, Chinese)
- *Repenser la gestion de nos sociétés : 10 principes pour la gouvernance du local au global* – ECLM – 2001 (French, English, Spanish, Portuguese, Arabic, Chinese)

Professional cursus :

- Has been for twenty years Senior civil servant in different positions related to physical and urban planning, housing, international cooperation.
- Former General Secretary of Usinor (industrial group in iron and steel industry).
- Since 1988, General Director of the Foundation Charles Léopold Mayer for the Progress of Humankind, a Swiss-based international foundation, mainly devoted to the mobilisation of knowledge and experience to help facing the next decade major challenges.
- Founding member of the *Alliance for a responsible and united world*. The *Alliance* is an international process relating individuals and movements willing to work together on the and preparation of means and solutions to face the main challenges of next century, by gathering their reflections, actions and strength.

www.fph.ch

Pim KOEGLER

Founder en Director of P.I.M. (Power Inspiring Movement) which is a (international) consultancy firm on energy policy, sustainable regional economic development and innovation.

Born in 1963, lives in The Netherlands and speaks Dutch, English and German

Areas of interest and expertise: energy; innovation; regional development; environmental law; developing visions and strategies; bringing people/parties together to join forces for developing new ideas and projects; people say that I "network" without seeing it as a goal; I am enthusiastic and can make people enthusiastic for new ideas; I do think unorthodox.

Master degree at University of Groningen, Faculty of Law, Mediator.

After more than 11 years as an environmental legal consultant I started to work for the Province of Groningen (2003). From 2004-2006 I was amongst other things the project manager Sustainable Development. Till the end of 2007 I will be working for the Province of Groningen as one of their Senior Policy Officers on Energy with special field of interest the EU. Other functional occupations are EU-liaison Energy Valley, chair of CEMR working group "Network on energy issues" and being a member of the ManagEnergy Reflection Group..

www.provinciegroningen.nl

Rémy BECK

Directeur adjoint du service cantonal de l'énergie / department du territoire / Etat de Genève

Né en 1955, vit à Genève, Suisse et parle le français.

Domaine d'expertise et centres d'intérêt : utilisation rationnelle de l'énergie - développement des énergies renouvelables sur le territoire - écoquartiers -

Etudes d'ingénieurs EIG - master en système énergétique EPFL -

www.geneve.ch

Susann SCHERBARTH

Climate and Energy Campaigner at Friends of the Earth Europe (FoEE),

Born in 1980, lives in Brussels and speaks German and English

Areas of interest and expertise: Relation of Human-being and Environment – research of social aspects in sustainable Energy concepts (Participation, Acceptance, Social Design, ...) and working in European projects and competences in moderation, project-management and team-building skills. NGO experiences from the past 11 years. I love playing Basketball.

Now I'm working at Friends of the Earth Europe (FoEE) in Brussels - largest grassroots environmental network in Europe campaigning for sustainable solutions to benefit the planet, people and our common future – on Energy and Climate issues and in addition I am coordinator

of Young FoEE, a network for young people within FoEE, who commonly want to work on pressing environmental issues such as Climate Change in a European context.

Before I studied Psychology and was working at the University as a research assistant in the field of Environmental Psychology on sustainable energy concepts in a European project in Spain and Scandinavia.

Working voluntarily in NGOs since 11 years, was member of the board of BUNDjugend (biggest Youth Organisation on environmental issues in Germany) the last three years and in the YAFE (Youth Alliance for Future Energy – open Network for Youth in Renewable Energies and climate issues) and for Young Friends of the Earth Europe.

www.foeeurope.org, www.bundjugend.de

Sylviane FRIEDLINGSTEIN

Conseillère de Cabinet

Née en 1960, vit en Belgique et parle français et anglais

Domaine d'expertise et centres d'intérêt : Chargée de la territorialisation des politiques énergétiques et environnementales

Etudes de philosophie, droit et sociologie.

www.evelyne.huytebroeck.be

Sylvie LACASSAGNE

Project Manager Energie-Cités
